SUMMARY

A passionate and versatile Web Developer, keen to transition from voiceover production into development. Combines natural aptitude for UX and visually appealing designs with newly developed skills in both front and backend. Recently finished certification in a Full-Stack Web & App Development Bootcamp.

EXPERIENCES

IT Intern | DocMorris, Berlin

02/2025 – 04/2025

- Designed and implemented CMS components using Figma and StrapiCMS to support future marketing campaigns
- Created a requirements catalog enabling the migration of 100% of marketing UI components to StrapiCMS
- Developed a dashboard layout for sales-tracking improving marketing team visibility into key KPIs
- Research including benchmarking, user test preparations, and requirements analysis in collaboration with the marketing team to replace UseMax

Freelancer – Audio design | Independent, Berlin 01/2011 – 11/2019

- Conceptualizing and realization of brand placement in audio using newest digital technology – delivered 100s of polished digital products on tight deadlines
